

ADOM completion rates: April 2024 to March 2025

ADOM (Alcohol and drug measure) is mandated by the Ministry of Health to be offered to tāngata whai ora in community addiction services in Te Whatu Ora District's and NGO's. Below is an indication of how well the information is being collected. While there is currently no target for ADOM collections, there is clearly room for improvement.

Percentage of AOD episode of care into mandated services with at least one ADOM collection (treatment start or assessment only) by organisation type and Te Whatu Ora area¹, April 2024 to March 2025

Te Whatu Ora area	Te Whatu Ora			NGO ²		
	ADOM	Total	%	ADOM	Total	%
Northland District	251	756	33.2%	629	989	63.6%
Waitematā District	2,607	6,569	39.7%	244	460	53.0%
Auckland District				496	1,639	30.3%
Counties Manukau District				629	1,014	62.0%
Waikato District	175	473	37.0%	784	1,691	46.4%
Lakes District	1	5	20.0%	365	1,144	31.9%
Bay of Plenty District	102	284	35.9%	470	1,038	45.3%

South Canterbury District	18	152	11.8%	0	58	0.0%
Southern District	8	227	3.5%	171	821	20.8%
Total	4,018	11,007	36.5%	5,604	14,452	38.8%

Notes: AOD episode of care entering mandated services (Total), includes:

- teams mandated to collect ADOM³
- team type of alcohol and drug team or a co-existing team
- tāngata whai ora aged 18 years and over
- referrals with an in-scope contact. Excludes activity settings: WR, PH, SM, OM and exclude activity type: T08, T32, T35, T46, T47 and T49. The activity type is a contact

¹ There are no or small numbers of eligible NGOs currently in Nelson Marlborough district area. It is not possible at this point to disaggregate AOD tāngata whai ora in integrated mental health teams for Hutt Valley District. Wairarapa District the services are delivered by NGOs.

² Teams within NGOs are assigned to a Te Whatu Ora district area.

³ Some teams in the list are excluded. This is because the team is coded as a community mental health team, and AOD only referrals cannot be differentiated.

- referrals joined together to make an episode of care if they overlap or have 14 days or less between referral end and referral start
- episodes of care which start in the period of the report.

Treatment starts are within the episode of care and include only episodes of care with a treatment start ADOM collection including assessment only (RC13, RC14, RC15) in analysis (ADOM).
