

Number of tāngata whai ora seen 0 to 47 months by Infant Mental Health Services: relevance to collecting HoNOSI

April 2022 to March 2023

The following table shows the number of Infants 0 to 47 months seen over one year period, up to March 2023. These numbers are taken from PRIMHD and reflect the numbers of Infants who would be eligible to have a HoNOSI outcome measure completed.

HoNOSI (Health of the nation outcome scales) has been mandated for collection by Infant mental health services from 1 July 2024. HoNOSI is a simple 15 scale outcome measure which applies to Infants aged between 0 and 47 months.

As can be seen from this data the three Auckland based Te Whatu Ora district services are recording the majority of Infants seen between April 2022 and March 2023, with Auckland Te Whatu Ora service recording the most for babies aged 0 to 11 months.

Number of tāngata whai ora seen aged 0 to 47 months, April 2022 to March 2023

Te Whatu Ora district	Age (months)				Total
	0 to 11	12 to 23	24 to 35	36 to 47	
Waitematā	9	16	23	49	97
Auckland	259	46	36	47	388
Counties Manukau	53	39	34	42	168
Waikato		1	1	3	5
Lakes				1	1
Bay of Plenty	2		4	10	16
Tairāwhiti		2	2	3	7
Hawkes Bay				2	2
Taranaki			1		1
MidCentral				2	2
Whanganui	1	2	3	2	8
Capital & Coast		1	1	2	4
Hutt Valley			1	4	5
Nelson-Marlborough	3		2	5	10
Canterbury	2	1			3
South Canterbury			1	1	2
Total	329	108	109	173	719

Source: Te Whatu Ora – Health New Zealand, PRIMHD extract dated 23 August 2023, analysed and formatted by Te Pou.

Tāngata whai ora seen = count of tāngata whai ora who had at least one in scope activity in the reporting period.

In scope activity = Activity Type Code all except T08, T15, T35, T33, T37, T46, T47, T49, T50, T52 AND Activity Setting Code all except WR, SM, OM.

Team Type Code all except for 03, 11, 17, 24, 26.

Note: This is the information in PRIMHD at the date of extract. These numbers can change when additional information is submitted to PRIMHD.
